

Jayelon Lasseigne

Software Engineer | Greenville, SC (open to relocating) | (864) 894-9027

<https://www.linkedin.com/in/jayelon-lasseigne/> | <https://github.com/Lasseignejk> | <https://lasseignejk.github.io/>

SKILLS

Python HTML CSS JavaScript Node.js PostgreSQL React Redux TypeScript

PROJECTS

Avocado | <https://github.com/Lasseignejk/Avocado-frontend>

March 2023

- Restaurant POS site where customers can order food and owners can view their stores and associated data
- Built with React/Redux, Supabase, Tailwind CSS, Node.js, and Plotly
- Worked as the project manager, leading daily standups and making sure the project was on track using GitHub Projects and flowcharts made on Figma, as well as coding consistent styling across the site

The Broken Egg | <https://github.com/Lasseignejk/TheBrokenEgg>

February 2023

- Recipe-browsing site built with React/Redux, TypeScript, Tailwind CSS, and the Spoonacular API
- Worked as the sole-developer, manipulating state across components and developing a theme and styling
- Users can search for recipes and can click on them for more information, such as ingredients and instructions

EXPERIENCE

DigitalCrafts | Teacher's Assistant | Remote

April 2023 – Current

- Perform tasks such as taking attendance and checking homework for a full-stack software development course
- Aid budding developers by answering questions related to coding, providing feedback on projects, and supplying different perspectives on problems
- Anticipate potential problem areas for students and prepare examples and resources

Open Library | Contributor

March 2023 – Current

- Open Library is a book cataloging site, where the goal is to make a web page for every book ever published
- Attending weekly meetings for developers to provide updates, explain any blockers, and discuss ongoing projects related to the website
- Assisting other developers by testing updates and providing feedback on the design of new features
- Currently refactoring Open Library's team page based on Figma designs created by other contributors

JET Programme | Assistant Language Teacher | Nagano, Japan

July 2017 – July 2022

- Built and maintained a curriculum for 6th grade English for four years
- Gave engaging lessons on English grammar and vocabulary, as well as cultural lessons designed to introduce students to the world outside of Japan
- Tutored one to two students daily before or after school in English conversation

EDUCATION

DigitalCrafts | Full-Stack Web Development Bootcamp

Nov 2022 – Mar 2023

Honors College at the College of Charleston | B.A. in International Studies | Charleston, SC

Sept 2012 – May 2016
